

Fitment Guide

This is not a complete list. If your bike is not listed, or no cushion is suggested, we still make a cushion for your bike! Use the dimensions below and compare to your seat to find the best fit. Remember, the seat cushion does not need to fit the seat *exactly* to be effective, as long as the cushion is large enough to cover the area where your rear and the seat meet.

AIRHAWK R	14" deep x 15.25" wide (This is great fit for most bikes; the front cut-out allows for the cushion to hug the tank.)
AIRHAWK Medium Cruiser	14" deep x 14" wide (This is <i>by far</i> the most common fit)
AIRHAWK Large Cruiser	18" deep x 14" wide (Exactly the same as Medium Cruiser, with an extra set of cells in the front between your legs)
AIRHAWK Small Cruiser	18" deep x 12" wide (Fits most sport and street bikes)
AIRHAWK Large Cruiser Pillion	14" deep x 11" wide (Large passenger seats and some ATVs)
AIRHAWK Small Cruiser Pillion	11" deep x 9" wide (Small passenger seats)

F = Front (Cushion for Driver)

R = Rear (Cushion for Passenger)
